

Start-Up Cleaning Kit

Compliant for sterile contamination control in Pharmaceutical compounding environments

Dependable performance products

Convenient start-up quantities

Easy reorder form included

TYPICAL APPLICATIONS:

- Healthcare Institutions
- Hospital Pharmacies
- Independent Compounding Pharmacies
- Physician Practices
- Any USP<797> Compliant facilities whereby compounded sterile products are prepared, stored, and/or dispensed

Lymtech's USP<797> Start-up Cleaning Kit is designed to take the guess work out of which cleanroom consumable cleaning products are necessary and suitable for isolators and biosafety cabinets. *Fully compliant with USP<797> Competencies, Conditions, and Practices for cleaning and disinfecting sterile compounding areas.*

Lymtech's USP<797> Start-Up Cleaning Kit includes a convenient assortment of dry wipes, presaturated wipes, validated sterile wipes and wall & ceiling wiping devices for proper cleaning and maintenance of cleanrooms, isolators, bio-safety cabinets, hooded work stations and equipment.

Lymtech's USP<797> Start-Up Cleaning Kit is designed with high quality, independent third-party tested products already being used in the industry. These products have been evaluated and approved by end-users to confirm the performance, integrity and consistent properties.

Lymtech is a full service contamination control solutions provider. We work closely with our end-users to identify critical industry needs and opportunities then create and manufacture dynamic & specialized products that deliver expected proven results.
